

# SPARE POOL VALVE MANAGEMENT

## Control Lead Times and Manage Costs

Setpoint's customized spare pool valve management program offers customers peace of mind by reducing downtime and the expenses of repairs while enabling customers to maintain smooth operations.

- **IMPROVE RELIABILITY** with organized, accessible spares
- **INDOOR STORAGE** to protect your assets
- **STORAGE AT NO COST** to reduce warehousing expenses
- **RESPONSIVE COMMUNICATION** with dedicated repair coordinators
- **24/7 SUPPORT AND SERVICE** from our Sales & Service Teams

### ✓ Faster Lead Times

Replace critical valves faster with spares that are set and tested, and ready to be tagged.

### ✓ Reduce Costs

Reduce labor costs when emergencies happen and reduce the number of spares required through our asset optimization tools.

### ✓ Real-Time Access & Visibility

Optimal visibility and transparency with 24/7 access to real-time valve status through ValvKeep Viewer. View test reports and images online in our asset management system.

### ✓ Conversions

Modify valves to satisfy new process requirements with the spare parts and technical support that you need to keep your facility operating.

World class technical and application support from our team of engineers at both Setpoint and Baker Hughes

Certified Dual Media valves and trim conversion kits readily available that can optimize performance in liquid and gas services

FREE PRV training for all customers enrolled in our spare pool program

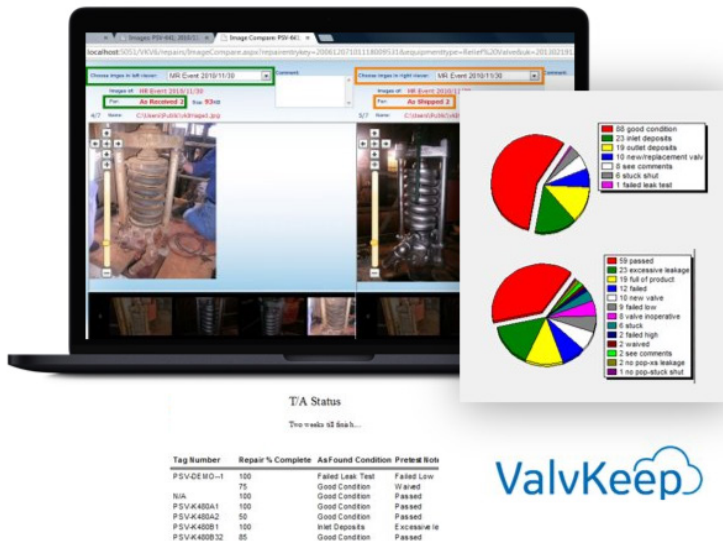

Our PRV technicians are the most experienced in the industry and can repair any valve from any manufacturer

# ASSET MANAGEMENT

## VALVKEEP VIEWER GIVES THE CUSTOMER MORE CONTROL

ValvKeep Viewer is our asset management system that provides real-time access to status reports and images. A secure login allows for exclusive access to your unique data, safeguarded from other users.

We take asset management seriously by offering the most powerful asset management software tools on the market, and we will help you manage your valve population cradle to grave.

Request a free demonstration and assessment of how our asset management program can help improve the quality, safety, and productivity of your facility by contacting your account manager or by emailing us today.

Contact Setpoint today to help you plan, manage, and execute your spare pool program!

### REPAIR TRACK

Keep track of your valve's lifecycle and repair history.

### REAL-TIME UPDATES 24/7

24/7 access to repair updates in real-time with detailed and accurate repair reports and images.

### QUALITY

Each step in the repair process is a Quality Assurance Check to the previous step.

### PROACTIVE PLANNING

Planning a turnaround has never been easier with the Turnaround Cloud. Planners can use the ValvKeep Calendar and Turnaround Cloud to plan valves for repair.
