

SETPPOINT

INTEGRATED SOLUTIONS

INNOVATIVE. SERVICES.

Setpoint Integrated Solutions (IS) is a leading integrated solutions and services provider in the process control industry. Setpoint IS engineers, sells, and services products ranging from control valves and process automation equipment to industrial filtration and provides a full range of site services and immediate technical support. Setpoint Integrated Solutions, headquartered in Baton Rouge, La., is a subsidiary of Pon Holdings B.V. of the Netherlands.

FILTRATION GROUP

With over 70 years of combined experience, Setpoint Integrated Solutions (IS) is a leader in providing innovative services for liquid handling and air/gas filtration as well as oil purification. With hundreds of successful applications, Setpoint IS has proven it can solve the most demanding filtration issues over a broad range of industries. Setpoint IS represents the leading OEMs in the industry for these applications:

- + Process Liquid/Water Filtration
- + Lube Oil/Hydraulic Fluid/Fuel Purification
- + Fuel Gas Filtration
- + Compressed Air Filtration
- + Inlet Air Filtration

In addition to new product offerings, Setpoint IS also has an extensive rental equipment fleet to help end users resolve maintenance issues throughout the year. The rental equipment includes:

- + Multi-Round Bag Vessels
- + Multi-Vessel Bag Systems
- + Vacuum Dehydrators
- + Portable Carts
- + High-Flow Trailer Mounted Bag Filtration Systems

Setpoint Integrated Solutions has the product lines, service, and experience to exceed any and all customer expectations regarding filtration.
