

SETPOINT HAS CLEAN DOWN TO A SCIENCE

PRECISION CLEANING

Provides a controlled environment with the lowest possible levels of pollutants that could unfavorably affect any research or manufacturing process.

ISO CLASS 7 CERTIFICATION

Utilizes a High Efficiency Particulate Air (HEPA) filter, and when necessary for stringent cleanliness performance, an Ultralow Particulate Air (ULPA) filter to trap particles 0.3 microns or larger in size.

BEST-IN-CLASS DESIGNATION

Offers an additional, specialized oxygen cleaning service, which further reduces already low levels of pollutants.

VERSATILE PRODUCTION

Provides consistency, conformability, competence and convenience no other facility in Louisiana can offer.
